After the point is awarded, both teams will begin a new match. The two teams will play with this format for the duration of the 25 minutes. At the end of the 25 minutes the team with the most points will win the match. If the two teams have the same number of points at the end of the 25 minutes, the team with the most players remaining on the court will win the match. If the teams have equal amounts there will be a sudden death, first team to get another participant out will win the match.

III. Game Set-up

- a. Play will begin when the official blows the whistle. All players must have one foot touching the farthest wall from the center line. All balls will be placed on the center line. The balls are considered fair game for either team. Once the official blows the whistle both teams will be allowed to grab the balls before the opposing team gains possession of them.
- b. Once the game begins players that gain possession of a ball must touch the quarter line (line between center and back line) before they can attempt a throw.
- c. If only 1 player remains on a team the opposing team may advance to the quarter line, but not past it in the opposing teams' zone.
- d. A player will be considered out when one of the following occurs:
 1. A thrower strikes an opposing player below the head with a ball.
 2. A thrower's attempt is caught by the opposing player. This also allows one member of the catcher's team to rejoin the game.
